VERENA DE PRATO INTENSIVE GERMAN / ITALIAN

PRONUNCIATION DICTION INTERPRETATION

For Singing it is very important to pronounce the text correctly. This not only helps solve issues of vocal technique, but also enhances your possibilities of expression. Your interpretation will become more powerful, convincing and fascinating for the audience.

The Austrian soprano Verena De Prato studied singing in Vienna with the world-renowned bass Otto Edelmann. She is fluent in German, Italian and English. She understands the challenges that singers and accompanists face when dealing with texts in a foreign language, especially when they want to perfect their pronunciation of the work's languages in order to refine the truth and the expressive quality of their interpretations.
